2. Data provided by the personal research of the founder of SMITH-TAYLOR and Allied Families Association (STAFA), MSG (ret US Army) Charles Wesley Smith. I have spent day after day walking in small to large cemeteries, recording data on the headstones. Also, reading books, documents and newspapers in libraries from the small home town library to the Library of Congress; and talking to many folks from the hills of Kentucky to the hills of Germany and many place in between. Oh, such joy and pleasure to learn of the family, both ancestors and descendants, may we continue to learn. I must admit that I was as many a young family researchers "very relaxed in the arena of documenting my research" and I often have to pay for it today, by giving a blank look in response, when questioned.
